NEW BOOKS

THE CONSERVATION OF GROUND WATER; A SURVEY OF THE PRESENT GROUND-WATER SITUATION IN THE UNITED STATES by H.E. Thomas. 1st ed. New York, McGraw-Hill, 1951 327 p. 292 T36.

This book reviews the basic hydrologic principles and data, and provides in outline an inventory of our total water resources. The need for more effective ground-water development and requirements for better ground-water management is stressed.

FIFTY YEARS OF FORESTRY IN THE U.S.A. Washington, Society of American Foresters, Committee on History of Forestry. 1950. 385 p. 99.04 Sol.

"The authors of these chapters, selected by the editor, have correlated subject matter into this volume which traces the professional forestry growth in the United States. The first chapter summarizes the principal developments to date; chapters 2 through 8 give in more detail the development of several of the important phases of forestry; chapters 9 through 19 trace the growth of the several important agencies and activities that have advanced professional forestry." Preface.

FLORIDA GARDEN GUIDE; A PRACTICAL GUIDE TO FLORIDA GARDENING. E.J. Craft, editor. St. Petersburg, Craft Publications, c1952. 58 p. (97 C84)

How to plant and care for flowers, shrubs, trees, and vegetables.

FOREST PRODUCTS, THEIR SOURCES, PRODUCTION AND UTILIZATION by A.J. Panshin and others. 1st ed. New York, McGraw-Hill, 1950. 549 p. 99.75 P19.

"This volume presents information on the origin, methods of conversion and utilization of the principal, primary and secondary forest products in America and from other parts of the world that are important to American economy. The text is divided into four parts: (1) Economics of forest utilization; (2) Wood products; (3) Chemically derived products from wood; (4) Derived and miscellaneous wood products." Book Jacket.

HANDBOOK OF ANTIBIOTICS by A.L. Baron. New York, Reinhold, 1950. 303 p. 448.2 B26.

This manual is a valuable abstract of the literature pertaining to the numerous antibiotic substances which have been isolated and studied to date. It is the first attempt to digest and correlate in a single volume, all the essential information on these substances and to organize them in a form suitable for ready reference.

HOME FREEZING FOR EVERYONE by L.J. Alkire and S. Schuler. New York, Barrows, 1950. 157 p. 389.3 A14.

A book that gives the most up-to-date information on every aspect of the subject. A handbook that tells you what to freeze, how to prepare it, how to cook it, and how to operate your freezer for maximum efficiency.

HOW TO FINISH OR REFINISH YOUR FURNITURE by Kay Hardy. New York, Funk & Wagnalls, 1951. 166 p. 318 H22.

A volume on how to fix upholstery, how to finish inexpensive unpainted furniture in a rich looking lacquer, how to build bookcases, kitchen cupboards, closets and record cabinets. Clearly illustrated with step by step directions.

INSPECTION ORGANIZATION AND METHODS by J.E. Thompson. 1st ed. New York, McGraw-Hill, 1950. 369 p. 291 T373.

"The greater emphasis is placed on organization, procedures and methods. The tools of inspection and their usage are simply the mechanical implementation of basic management policy, and a general understanding of the correct usage of inspection equipment." Preface.

MILK AND MILK PRODUCTS by C.H. Eckles. 4th ed. New York, McGraw-Hill, 1951. 454 p. 44 Ec5M Ed.4

"This revision was necessary due to the important developments in the dairy industry. The text dwells intensively on the fundamental nature of milk and the forces which are active in its processing for the preparation of milk products." Preface.

THE PASTURE BOOK by W.R. Thompson and others. 10th ed. State College, Miss. 1952? 350 p. 60.1 T37 Ed.10.

If you have a question on pastures, the Pasture Book has the answer. Covers all phases of pasture building from land selection to managing the grazing crops.

THE PEANUT, THE UNPREDICTABLE LEGUME: A SYMPOSIUM. Prepared by F.S. Arant and others. Washington, National Fertilizer Association, 1951. 333 p. 77 F313.

"The eight chapters of this book are concerned with the economic importance of peanuts, their origin and early history, morphology, genetics and breeding, physiology and mineral nutrition, fertilization, culture, and insect pests and diseases." Soil Science 72(5) 405, Nov. 1951.

PETROLEUM PRODUCTIVE CAPACITY; A REPORT ON PRESENT AND FUTURE SUPPLIES OF OIL AND GAS. Washington, D.C., National Petroleum Council. 102 p. (401)

A report prepared at the request of the Oil and Gas Division of the Department of Interior. It summarizes an intensive study by hundreds of experts in the oil industry and represents the best judgment of the industry as to the future.

PRACTICAL BUSINESS PSYCHOLOGY by D.A. Laird and E.C. Laird. New York, McGraw-Hill, 1951. 551 p. 249.3 L14.

"This book aims to acquaint the student or business reader with accepted principles of present-day psychology that will be of real practical use for advancing in business. 'The greatest application of psychology,' says the author, 'is not by the psychologists. It is by individual workers and bosses,' and this book is for them--to help the worker help himself to become more efficient, and to help the boss become a better boss." Preface.

THE PROGRESS OF FORESTRY. The American Forestry Association, Washington, 1951. 90 p. 99.61 Am3Pr.

A report based upon information obtained from federal, state and private sources which undertakes to highlight the trends of what has taken place in the major fields of forestry during the period 1945-1950.

PUBLIC RELATIONS by E.L. Bernays. Norman, University of Oklahoma Press, 1952. 374 p. 238.2 B45.

A thorough analysis of public relations, its origin and development, its aims and responsibilities, a field for adjusting private and public interest.

PUBLIC SPEAKING WITHOUT FEAR AND TREMBLING by H.S. Hanna. New York, Macmillan, 1949. 166 p. 145.2 H192.

Here is a little book packed with a lot of meaning. The chapters it contains will tell you how----

RANGE MANAGEMENT; PRINCIPLES AND PRACTICES, by A.W. Sampson. New York, Wiley, c1952. 570 p. 60.1 Sa4R.

The subject matter is presented under four subdivisions. Part I-Range Management in perspective; Part II- Native range forage plants; Part III- Improvement and management of range stock; Part IV- Protection of range resources and range livestock.

SOIL CONDITION AND PLANT GROWTH by E.J. Russell. 8th ed. London, Longmans, Green, 1950. 635 p. 56.3 R918 Ed.8.

This new edition, rewritten, gives a concise account of our present knowledge of the soil as a medium for plant life.

THE SUPERVISION OF PERSONNEL: HUMAN RELATIONS IN THE MANAGEMENT OF MEN by J.M. Pffiffner. New York, Prentice-Hall, 1951. 454 p. 249.3 F48.

For better understanding of human nature, both individual and collective, and its behavior in management situations. For improved leadership in line supervision so vital in obtaining maximum efficiency and effectiveness from every available worker.

WHERE TO RETIRE ON A SMALL INCOME by N.D. Ford. 4th ed. rev. and enl. Greenlawn, Narian, 1952. 72 p. 125 F753 Ed.4

While this booklet is not the answer to all problems of people who retire on a small income, perhaps it will answer a few questions you may have in mind

The following packet collections are available. Please request by subject, giving the number of readers interested. If you would like to have a collection on some subject not listed, send in your subject and we will assemble the material for you. Time of loan is six weeks.
